Hi everyone,

I have been making progress on my review of the plan but would like to have a little more time to review the materials that SCAQMD shared for the last call (which have been very helpful btw, thanks again!) before we reconvene. I think SCAQMD is still working on compiling a list of adopted rules that are contributing to the baseline reductions for direct PM2.5 and all precursors. Hopefully we can touch base on that and any other questions that come up during our review on our next scheduled call on September 5<sup>th</sup>.

Thanks!
